Anna Shuliatytska, QA Engineer

QA (Manual & Automation) with over two years of experience enhancing web and mobile application quality. Skilled in API testing (Postman, Swagger), SQL, and test case management in TestRail/Confluence. Familiar with Agile (Scrum) processes and CI/CD pipelines. Experienced in writing and running automated tests to improve coverage and product quality.

Employment History

QA Engineer at Inoxoft

May 2023 — September 2025

Performed functional, regression, and exploratory testing of web and mobile applications. Conducted API testing with Postman and Swagger, validated backend logic through SQL queries, and collaborated with developers and product owners to resolve defects and improve coverage. Participated in sprint ceremonies, release testing, and CI/CD pipeline verification.

Technical Support Engineer (L2) at Nagarro

May 2022 — May 2023

Handled troubleshooting and resolution of production issues for fintech and SaaS projects, analyzing logs in Kibana and Grafana to identify errors. Debugged API requests, coordinated cross-team incident management, and maintained detailed documentation of issues, fixes, and preventive measures. Developed scripts to automate daily tasks, reducing troubleshooting time by 20%.
